Personal summary

Highly motivated and detail orientated honor roll student. Currently attending Durham College's Computer Programming and Analysis program. Commands a commendable knowledge of object-orientated programming fundamentals, and very proficient in several programming languages. Practices detailed documentation and has excellent teamwork skills which allow for the writing, testing, and maintenance of code when both working alone and in team environments. Comfortable working both the back and front end of a project and incredibly eager and willing to learn more in both areas.

Currently looking for an internship opportunity during the summer of 2022 after I have finished my fourth semester. The summer 2022 software developer internship at Konrad Group would be a great fit. Allowing the skills mentioned above to be capitalized on throughout the summer in exchange for experience in the field.

Satisfaction

Work history

Ritz Plastics - Peterborough

MACHINE OPERATOR Dec 2014 - Aug 2015

Worked mostly alone to successfully ensure machines were properly and safely operating. Inspected parts for defects before packaging for shipment with a very good track record of shipping quality parts, emphasizing keen attention to detail. Kept excellent documentation of machine operation to assist mechanics and engineers when servicing the machines.

Duties:

- Responsible for reading documentation to learn how to properly operate machines and process different parts.
- Responsible for documenting the machines operations including recording data from the terminal and performing math operations.
- Responsible for ensuring quality parts were produced and shipped.
